Question: Our company is an 8(a) SDB. Would you please explain how the SDB credit will work for companies that participate both as a prime

and also as a subcontractor?

Answer: We will get the credit for the SDB prime contractor based on the data entered into PMRS database. The data comes from the DD 350 a reporting document completed by the contract specialist upon award of the contract. As a subcontractor the prime contractor will include the SDB in their subcontracting plan and report it on their SF 294/295. The contract is administered by DCMA and they will input that data into DIOR (a reporting data base).
